OBERT W. STRAUB

April 12, 1976

Westinghouse Electric Corporation 614 No. Tillamook Portland, Oregon 97227

Attention: Mr. Dave Wolske

Dear Sirs:

As a result of a Polychlorinated Biphenyl (PCB) survey conducted on January 28, 1976 in the vicinity of your transformer service area, it is apparent that PCBs are getting into the storm drain. A copy of the analytical results of the survey are attached.

Since these highly toxic PCBs are entering the storm drainage system it will be necessary for you to make application for a National Pollutant Discharge Elimination System Waste Discharge Permit. This is required by U. S. Public Law 92-500 and Oregon Revised Statutes 468.740.

Please complete the enclosed application and submit it within 30 days. Along with the application it would be helpful if you would include a simple layout of your facility showing all those areas where PCBs are handled. Also include structures or facilities used to contain them in order to prevent contamination of surface runoff.

If you have already formulated future plans to improve containment facilities please describe them and give the time schedule for eliminating the discharge of PCBs.

Westinghouse Electric Corporation April 12, 1976 Page 2

Any permit which we issue must include a program and time schedule for preventing all discharges of PCBs.

As part of the application we need your spill prevention and countermeasure control plan. If you have not yet developed one please do so as soon as possible.

Sincerely,

LOREN KRAMER

Director

Charles K. Ashbaker

### ERRATA SHEET NPDES Short Forms A, C, and D

(The changed or added content is underlined; deleted content is crossed out)

#### Short Form A

Instructions, Item 10, last sentence should read:

"If a box on line D is checked . . . "

#### Short Form C

Instructions, Item 1, 2nd sentence should read:

"If the mailing address is different from the location, supply the location address in Item 1.C. In 1.D., give the telephone number of the person who can provide information regarding this application."

Item 11. should read: .

"If any of the three types of waste identified in Item  $\underline{10}$ ,  $\underline{1ines}$   $\underline{A,B,C, ...}$ "

#### Short Form D

Instructions, Item 1:

Delete last sentence.

Instructions, Item 6, 1st sentence should read:

"This item applies to wastes discharged . . . "

Item 7. should read:

"If any of the types of waste identified in Item 6, lines A, B, C.
